S 2LW with fire blanket	5	70	—	—
S 2 LW	5	70	—	—

- Push the **yellow button A** - extinguisher is ready to use.
- Push the **black button B** - the **valve C** opens.
- Extinguishing agent enters the **driptube D** from where it goes to the **nozzle E**.

- **S 2 LW** - contrary to powder, it does not cause a „dust cloud“ effect which may impede breathing and sight. Indisputable advantage is ease and cheap cleaning afterwards.
- **Ergonomic and intuitive design of fire extinguishers** - allows easy handling in emergencies.
- **Minimized external dimensions** thanks to special valve and container construction.

AREAS OF USE

- Cars
- Trucks
- Campers
- RVs
- Motor boats and yachts
- Workrooms
- Ironing rooms
- Kitchens
- Firesides
- Households

Type	Model	PN	Weight of charge unit [kg]	Extinguishing agent	Qty of extinguishing agent [kg, l]	Propellant gas	Discharge time [s]	Throw [m]	Working temperature [°C]	Bracket H/W/D, Ø [mm]
F 1 GM Exclusive	PG 1 L	001413.1865	2.2	ABC powder	1	nitrogen	8	4	-30 / +60	180* / 280* / 100*, 90
